

# DT 20NR

## Industrial Diesel Engine

DT20 NR

- 2992 cc
- In V6 Cylinders
- Common Rail
- Turbo with Intercooler
- 112 kW @ 3 000 rpm
- 370 Nm @ 1 750 rpm
- Weight : 220 Kg

- *Lightweight*
- *Low Vibrations and Noise*
- *Performance*
- *Low Emissions*
- *Economical*
- *Compact*
- *Durable*
- *Environment Friendly*

The DT20 NR benefits from all the experience PSA has gathered from Common Rail Engines (HDI) and more than 1 million engines produced with this technology.

Thanks to its electronic fuel injection management, DT20 NR complies with EURO Stage 3B and TIER 4 Final standards, is fuel efficient, is low noise and vibrations.

All the parts of the DT engines have been studied with high durability level in mind.

The weight of all the moving parts has been minimized, leading to improving performance as well is reduced fuel consumption.

The oil maintenance of the DT can be adapted with an optional larger sump.

\* Certification in progress
